## LANGUAGE

# IOANA C. PASCU

"I am a junior full-stack developer, and front-end enthusiast, with almost 3 years of project oriented experience as a student worker, and more recently as a full time employee. I am driven to further develop my skills and gain new knowledge on the way."

## EXPERIENCE

- Email developer for Wunderman Thompson  
2400 Copenhagen NV  
Oct 2020 - Present

Wunderman Thompson was my intro into the world of consultancy. Currently, I am part of a team responsible for an internal application which allows world renowned brands to brief their email campaigns. Specifically, I am responsible for implementing custom HTML and JS templates within the application.

- Full-stack developer for Simplytur  
2100 Copenhagen Ø  
Sep. 2019 - Oct 2020

As my first full time job experience I have had the opportunity to dive deeper into full-stack programming by refactoring the administration system into a .NET core application. Hence, I have learnt how to deliver a project where I am responsible for development on all fronts..

- Student full-stack developer for Plan2Learn  
8260, Viby J  
Jun. 2018- Sep. 2019

While working as a student for Plan2Learn, my responsibility within the development team was to be in close contact with the UX team while refactoring the legacy platform to .Net core, and migrating the front-end to Bootstrap 4.

- Intern for Plan2Learn  
8260, Viby J  
Feb. 2018- Jun. 2018

As an intern, I had the opportunity to apply the knowledge accumulated during the first semesters as a student, but solidify them with "on the field" work by getting familiar with EntityFramework and KnockoutJS.

- Erasmus junior web developer for HighContrast  
Brașov, Romania  
Jun. 2017- Dec. 2017

My ErasmusPlus experience have consisted of developing internal mobile and web applications in Angular3 and Angular4.

## EDUCATION

- Bachelor of Engineering in Information and Communication Technology  
VIA University College  
8700, Horsens  
Aug. 2015 - Jun. 2019
